

ASE1 Assignment Submission

Please follow these guidelines to submit your assignment.

1. Refer the document with questions shared in the group
2. Each question should have 1 code file named after it. Example: Q1.py, Q2.py Q10.py.
3. Each file must have one main function named main() and any number additional functions required. This main function should take input and return output strictly in the same order, formats as in the questions.
4. You should put all your code files in a repository named after your full roll number. Ex: S20180010001
5. Your code will be checked for plagiarism and then will be evaluated using an automated script and Marks will allocated. Therefore please stick to the format, naming convention, order of inputs, outputs, format strictly

Any doubts please contact anirudh.a17@iiits.in
